

EXPERIENCE

CHÂTAIGNE | STAFF SOFTWARE ENGINEER

Dec 2023 – Present | Remote

- Architected and rebuilt entire frontend architecture using React/Next.js, serving thousands of users on WhatsApp ordering platform with 0% commission model.
- Implemented comprehensive testing strategy using Trophy method, increasing code coverage from 0% to 85% and reducing production bugs by 70%.
- Created "Arceus" AI analytics API that processes customer conversations daily, providing actionable insights that improved chatbot satisfaction by 25%.
- Pioneered advanced context engineering methodologies in Cursor AI, establishing company-wide AI development processes adopted by entire engineering team.
- Developed marketing mini-games for partner brands, generating 5K+ engagement interactions.
- Introduced 2-day sprint methodology inspired by US practices, improving team delivery speed by 35%.

OPENSOURCE TOGETHER | FOUNDER & ENGINEERING LEAD

2024 – Present | Remote

- Founded a platform connecting developers, designers, and creatives for open-source collaboration; led a team of 11 (7 engineers, 2 designers, 1 GTM).
- Defined product vision and strategy through user interviews and UX research, leading to 600+ waitlist signups pre-launch.
- Architected and built an app with Next.js/Nest.js, enabling contributor-project matching based on tech stack and skills.
- Led go-to-market efforts, launching a successful beta and growing an active user base post-release.
- Established team workflows and delegated tasks across frontend and backend to drive execution.
- Grew community through strategic social media engagement, supporting hiring and partnership efforts.

CUSOR | AMBASSADOR (FRANCE)

2024 | Paris

- First French ambassador for Cursor, organizing 60-person event at amo.co showcasing advanced workflows and context engineering techniques.
- Beta tested pre-release features and collected user feedback, directly influencing product development.
- Contributed to French documentation translation, improving accessibility for francophone developers.

PROJECTS & LEADERSHIP

TECH COMMUNITY BUILDING | CONTENT CREATOR &

COMMUNITY LEAD

2024 – Present | Paris

- Built 3,000+ follower presence on X (Twitter) focused on development and startup ecosystem.
- Lead 4,000-member community encouraging public building and project development.
- Organized "Startup Pizza Nights" at École 42 featuring CEOs/CTOs (Dust, Jow), attracting 1,000+ attendees.
- Content strategy resulted in recruiting opportunities and business partnerships for châtaigne.

EDUCATION

ÉCOLE 42

COMPUTER SCIENCE & SOFTWARE ENGINEERING

2024 – Present | Paris, France

Peer-to-peer learning methodology
Project-based curriculum

SKILLS

FRONTEND

React • Next.js • TypeScript •
Testing • Component Architecture
Built production systems serving
thousands

BACKEND

Node.js • Nest.js • REST APIs • Testing
• Domain-driven development
• Clean Architecture
Architected scalable microservices

LEADERSHIP

Team Management (11 people)
Sprint Planning • Agile Methodologies
Product Strategy • User Research
Led cross-functional teams to
successful launches

AI & INNOVATION

Context Engineering • Cursor
Process Automation • AI Integration
Pioneer in AI-assisted development
workflows

TECHNOLOGIES

CORE STACK

JavaScript/TypeScript • React/Next.js
Nest.js • PostgreSQL • Git • Docker •
CI/CD • Jest • Playwright

SPECIALIZED

WhatsApp Business • AI Integration •
Testing Frameworks • UI engineering
